# Brownfields 2015 Grant Fact Sheet

## Brattleboro, VT

### EPA Brownfields Program

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. In 2002, the Small Business Liability Relief and Brownfields Revitalization Act was passed to help states and communities around the country cleanup and revitalize brownfields sites. Under this law, EPA provides financial assistance to eligible applicants through four competitive grant programs: assessment grants, revolving loan fund grants, cleanup grants, and job training grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

### Assessment Grants

*\$200,000 for hazardous substances*

*\$200,000 for petroleum*

EPA has selected the Town of Brattleboro for two brownfields assessment grants. Community-wide hazardous substances grant funds will be used to conduct five Phase I and four Phase II environmental site assessments. Community-wide petroleum grant funds will be used to conduct five Phase I and three Phase II environmental site assessments. Grant funds of both types also will be used to support community engagement activities, and develop up to three cleanup plans and one area-wide plan for each type of grant.

### EPA Brownfields Program

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. In 2002, the Small Business Liability Relief and Brownfields Revitalization Act was passed to help states and communities around the country cleanup and revitalize brownfields sites. Under this law, EPA provides financial assistance to eligible applicants through four competitive grant programs: assessment grants, revolving loan fund grants, cleanup grants, and job training grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

### Assessment Grants

*\$200,000 for hazardous substances*  
*\$200,000 for petroleum*

EPA has selected the Central Vermont Regional Planning Commission for two brownfields assessment grants. Community-wide hazardous substances grant funds will be used to complete three Phase I and four Phase II environmental assessments. Grant funds also will be used to conduct cleanup planning and community outreach activities. Community-wide petroleum grant funds will be used to conduct the same tasks at sites with potential petroleum contamination.

## Lamoille County Planning Commission, VT

### EPA Brownfields Program

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. In 2002, the Small Business Liability Relief and Brownfields Revitalization Act was passed to help states and communities around the country cleanup and revitalize brownfields sites. Under this law, EPA provides financial assistance to eligible applicants through four competitive grant programs: assessment grants, revolving loan fund grants, cleanup grants, and job training grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

### Assessment Grants

*\$200,000 for hazardous substances*

*\$200,000 for petroleum*

EPA has selected the Lamoille County Planning Commission for two brownfields assessment grants. Community-wide hazardous substances grant funds will be used to conduct two Phase I and three Phase II environmental site assessments and develop two cleanup plans. Grant funds also will be used to support community engagement activities. Community-wide petroleum grant funds will be used to conduct the same tasks at sites with potential petroleum contamination.

# Brownfields 2015 Grant Fact Sheet

## Northwest Regional Planning Commission, Northwestern Vermont

### EPA Brownfields Program

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. In 2002, the Small Business Liability Relief and Brownfields Revitalization Act was passed to help states and communities around the country cleanup and revitalize brownfields sites. Under this law, EPA provides financial assistance to eligible applicants through four competitive grant programs: assessment grants, revolving loan fund grants, cleanup grants, and job training grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

### Assessment Grant

*\$200,000 for hazardous substances*

EPA has selected the Northwest Regional Planning Commission for a brownfields assessment grant. Community-wide hazardous substances grant funds will be used to conduct one Phase I, two Phase II, and one supplemental Phase II environmental site assessments. Grant funds also will be used to conduct community engagement activities and cleanup planning.

## Springfield Regional Development Corporation, VT

### EPA Brownfields Program

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. In 2002, the Small Business Liability Relief and Brownfields Revitalization Act was passed to help states and communities around the country cleanup and revitalize brownfields sites. Under this law, EPA provides financial assistance to eligible applicants through four competitive grant programs: assessment grants, revolving loan fund grants, cleanup grants, and job training grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

### Cleanup Grant

*\$200,000 for hazardous substances*

EPA has selected the Springfield Regional Development Corporation for a brownfields cleanup grant. Hazardous substances grant funds will be used to clean up the Bryant Grinder site at 257 Clinton Street. The 16.2-acre site was home to a metal machining equipment manufacturer and a concrete casting company from 1909 to 2005, and has been vacant since then. Site contamination includes volatile organic compounds, PCBs, metals, and inorganic contaminants. Grant funds also will be used to conduct community outreach activities.

### Assessment Grants

*\$200,000 for hazardous substances*

*\$200,000 for petroleum*

EPA has selected the Two Rivers-Ottauquechee Regional Commission for two brownfields assessment grants. Community-wide hazardous substances grant funds will be used to conduct four Phase I and two Phase II environmental site assessments. Community-wide petroleum grant funds will be used to conduct six Phase I and three Phase II environmental site assessments. Grant funds of both types also will be used to identify and prioritize sites and to support public engagement and cleanup planning activities.
